### ACCREDITATION v CERTIFICATION

CERTIFICATION ISO 9001

#### SYSTEMS ORIENTATED

Implementation of a Quality System which forms the basic requirements to ensure that a company has all of the necessary self regulating procedures, organisation and controls on all factors that affect quality so that it is possible to guarantee (give confidence) to the customer that the product will fall within specified requirements.

### ACCREDITATION v CERTIFICATION

ACCREDITATION ISO 17020

#### TECHNOLOGY ORIENTATED

The basic requirements for a system where the facility has all the necessary self-regulating procedures, organisation and controls on all factors to demonstrate their competence to carry out inspections to specified requirements (and provide evidence of this). So that it is possible to guarantee (give confidence) that competent inspections are carried out consistently.

---

---

---

---

## Competence concerning Facilities

- Personnel
- Methods
- Equipment
- *Measurement traceability*
- *Environment*

*There has to be criteria for this competence e.g. Standard Methods, known measurement relationship (standards, inter-comparisons)*

---

---

---

---
